## INVITATION

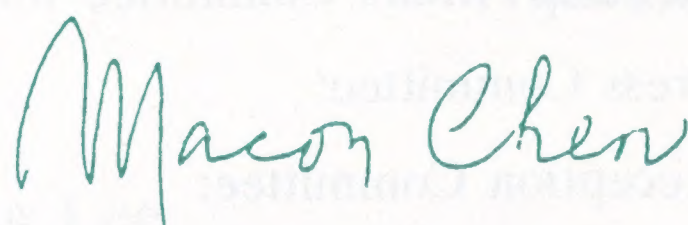

Dear Sir:

It is a great honor for me to invite you to the 7th International Congress of Oriental Medicine to be held on November 20-22, 1992 at China Medical College, Taichung. The International Oriental Medicine Society, which was established in 1976, has sponsored International Congress of Oriental Medicine every two or three years. The first Congress was held in Seoul, the second in Kyongju, the third in Losanne, the fourth in Kyoto, the fifth in Seoul, and the sixth, in Tokyo. The objective of the Society is to promote research in oriental medicine and the modernization of oriental medicine so as to enhance the health of all mankind.

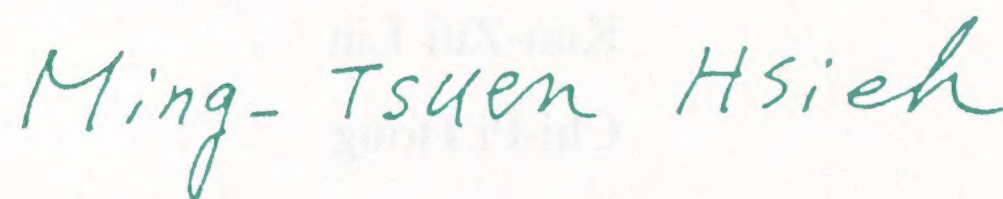

The scientific program will include special lectures, symposia, free discussions, poster presentations and exhibition, so as to provide overviews of recent advances in the studies of oriental medical and pharmaceutical sciences and acupuncture. the Congress has been warmly received by international community and has received more than 500 scientific papers.

On behalf of the Organizing Committee, we would like to welcome you and all other renowned scholars and doctors in the field of oriental medicine to participate in this great event. We are privileged to be your host in Taichung, Taiwan, and look forward with great pleasure to your enthusiastic participation in the forthcoming Congress.

Sincerely Yours,

Mason Chen, Ed.D.  
Chairman,  
Organizing Committee

## **Sketch of Taiwan**

Taiwan, situated at the cross roads of Northeast and Southeast Asia, is about 100 miles off the coast of South China. Geographically, Taiwan faces the Pacific in the east and the Philippines across the Bashi Channel in the south. It is separated from Fuchien province on the Chinese mainland by the Taiwan Strait in the west. Taiwan including the Penghu (Pescadores), covers an area of 36,000 square kilometers, with a population of 20 million. The Tropic of Cancer bisects Taiwan into a tropical zone in the south and a subtropical zone in the north. Monsoon rains make the island perennially green and its climate always springlike.

Taichung city where the Congress will be held, located at the center of the island, between mountains and sea. With its thriving industry and business as well as its unique cultural atmosphere, the city is full of vitality and prosperity.

Taichung, known as a "City of Culture", covers an area of 163.4256 square kilometers and with a population of more than 700,000, is the third largest city in Taiwan. The city is also famous for its Chinese food. Restaurants offer different styles of cuisine from all parts of China. Many beautiful scenic spots including Sun-Moon Lake, Aboriginal Tribes Village, Shi-Tou Forest Park are located in the vicinity.

### **Climate:**

Weather in Taichung in November is usually warm and dry. Temperature is between 16 - 24 °C.

### **Visas:**

All foreign visitors entering Taiwan must have a valid passport with valid visas. Visas are obtainable through the nearest embassy, consulate, or other designated agencies of the Republic of China.

### **Currency:**

The unit of currency in Taiwan is the New Taiwan Dollars (NT\$). NT\$24.50 equals approximately US\$1.00.

### **Electric Current:**

The electric current in use throughout Taiwan is 110V.

# THE HISTORY OF THE UNITED STATES OF AMERICA

The history of the United States of America is a story of growth, struggle, and achievement. From the first European settlements to the present day, the nation has evolved through a series of challenges and triumphs. The early years were marked by the struggle for independence from British rule, followed by a period of territorial expansion and the development of a unique political system. The Civil War was a pivotal moment in the nation's history, leading to the abolition of slavery and the strengthening of the federal government. The 20th century saw the rise of industrial power, the emergence of the United States as a global superpower, and the challenges of the Cold War. Today, the United States continues to shape the world through its leadership in science, technology, and international relations.
